MEMORANDUM FOR: Director of Training

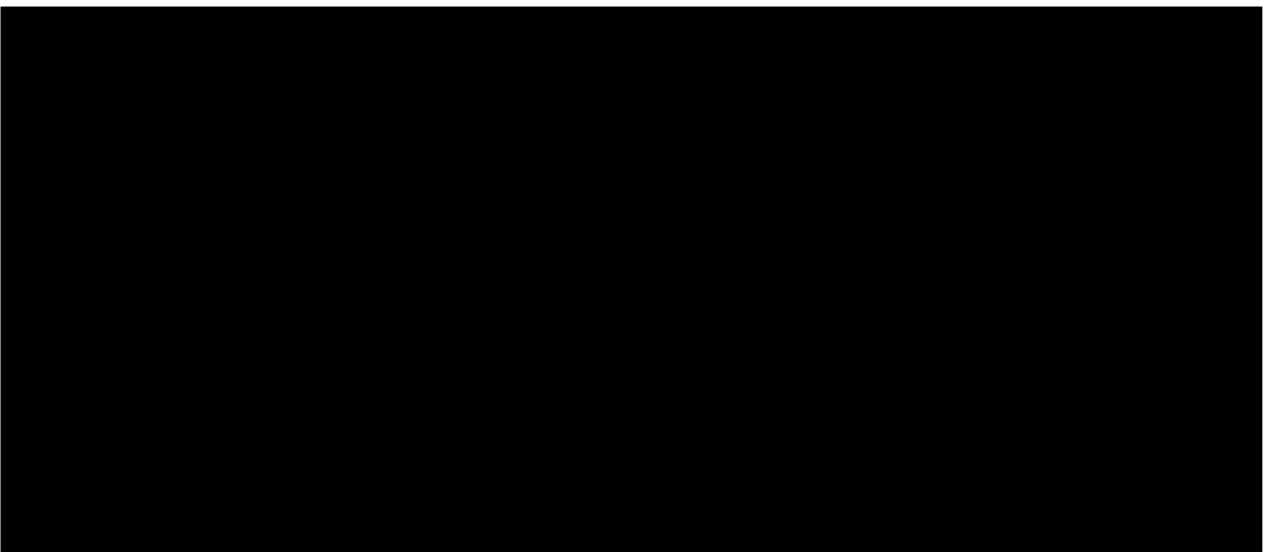

SUBJECT: Request for External Training in Photogrammetry
for [REDACTED]

25X1A9a

1. A major function of the Technical Intelligence Division is photogrammetric analysis. This analysis must be performed in order to provide accurate measurements from photographic images in support of the photo interpreter. Skilled photogrammetrists, particularly analytical photogrammetrists, are few in number and competition for their services is stiff. Extensive recruitment efforts over the past several years have resulted in the hiring of only a few experienced photogrammetrists. In view of this situation, the TID has turned to the development of in-house personnel to meet a portion of its needs. This development program consists of on-the-job training, basic and advanced internally-developed photogrammetry courses, and full time external training at the graduate level.

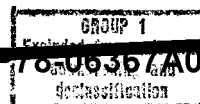

2. In that part of the program dealing with external training, TID has previously sent four of its employees to graduate programs; the attached request for [REDACTED] represents the fifth such planned program. 25X1A9a

SUBJECT: Request for External Training In Photogrammetry for
[REDACTED]

5. If approved for this training, [REDACTED] would be sent to the University of Illinois on a Permanent Change of Station move. The estimated cost for this external training program is \$2,200; tuition costs would be approximately \$1,000 and the PCS move to and from Illinois, approximately \$1,200.

25X1A

6. I strongly urge your approval of the request for graduate study in photogrammetry for [REDACTED]
